*If you are a first-time beekeeper, please choose between an unmarked queen and a marked queen in your package. The main reason for a marked queen is to be able to spot the queen more quickly and to know if you still have the original queen. There is no difference to the hive if the queen is marked or unmarked. Let us know if you are using a Top Bar, Warré, no-wax-foundation frame hive. We also have marked and clipped queens at your request.

The number of packages is limited and filled on a first-payment-received basis. You can check the current availability of packages at www.pabeekeeper.com.
